

Water Dispenser with UVC filter

Heavy duty stainless steel construction for factories, hospitals, schools

Fisher®

Easy
wall mount

Kills 99.9%
micro organisms

Tidy
spill proof

Durable
SS304 body

Lamp
failure alert

DURA-2

TIDY &
LONG LASTING

DURA-1

Fisher UV Dispenser is made of SS 304 for long service life and easy maintenance. The germicidal UVC radiation at 253.7 nm destroys micro organisms such as bacteria, viruses and pathogens without the addition of chemical agents, costing no more than lighting a common bulb. UV treatment does not change the smell or taste of water.

Special Features

- Wall mount frees up floor space
- Large spill proof drain tray
- Totally enclosed for protection from insects
- 9000 hours UV lamp life
- Alarm for lamp failure

Materials

Body	SS 304
UV chamber	Al / SS304
UV lamp envelope	Quartz
Push valve	SS 304

Application

- School
- Factory
- Office
- Hospital
- Public places

Operating Conditions

Max Water Temp	40 °C
Max Water pressure	3 bar
